

JAKE D. CUETO

Dear Hiring Manager,

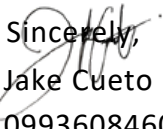

I am writing to express my interest in any I.T position within your organization. As a graduate of Bachelor of Science Information Systems with hands-on experience in IT support, web development, and system maintenance, I am confident in my ability to contribute effectively to your team.

In my recent role as an IT Support Specialist at Outsourcing Partner Inc., I provided technical support for hardware, software, network systems, and CCTV. I was responsible for troubleshooting system issues, maintaining network performance, and ensuring minimal downtime. I also gained experience in managing WordPress websites and handling MySQL databases for data management and system support.

Additionally, I have experience in developing responsive web applications using HTML, CSS, JavaScript, and React.js as IT Support Specialist and Technical Specialist. One of my key projects was the UB Career PATH, a capstone system designed to guide students in choosing appropriate career paths based on their skills and interests. I also worked on projects such as a Livestock Daily Monitoring Application and an Arduino based Anti-Drowsiness Eyeglass, which strengthened my problem-solving and technical skills.

I am highly motivated, detail-oriented, and eager to continuously learn new technologies. I am confident that my technical background and strong work ethic will allow me to contribute to your organization's success.

I would welcome the opportunity to discuss how my skills and experience align with your needs. Thank you for your time and consideration.

Sincerely,

Jake Cueto
