JAKE D. CUETO

Dear Hiring Manager,

I am writing to express my interest in a role within your organization that involves administrative and technical responsibilities. I hold a **Bachelor of Science in Information Systems**, which has equipped me with a solid understanding of both business processes and IT systems.

Through my education and practical experience, I have developed skills in:

- Supporting IT systems, troubleshooting software and hardware issues, and assisting with network or application maintenance.
- Handling administrative tasks, including data management, documentation, and workflow coordination.
- Using IT and business tools to improve efficiency and support decision-making.
- Communicating technical information clearly to colleagues or clients.

I am committed to applying my knowledge and organizational skills to help teams operate efficiently and solve technical challenges effectively. To support my application, I have attached my **certifications**, **my website portfolio** and other relevant documents, which provide formal verification of my skills and professional qualifications.

Thank you for considering my application. I would welcome the opportunity to discuss how my skills and approach can support your team and contribute to your organization's success.

Sincerely,
Jake Cueto
